## The Good Stuff: Great Gift Ideas for Gun Nuts

by David E. Petzal

In case you hadn't noticed the holiday season is lurking, claws flexing and eyes blazing, just around the corner. So if you're looking for gift ideas, here are some things that have proven themselves of worth in actual use this year.

**Leatherman MUT.** This tool is designed to service black rifles, and since I am not much of a black rifle shooter, Leatherman was nice enough to send one to someone who is, 2/LT Baker Flagg, currently stationed at Ft. Knox, KY. Lt. Flagg reports:

"I carried the MUT with me during three field exercises here at Ft. Knox and was able to use it in a variety of situations from conducting maintenance on tanks to cleaning weapons. The bronze scraper made quick work of carbon build-up, the quick-access cutting hook proved most effective, the knife and saw performed admirably, and I was able to clear up a truly hideous jam in my M4 rifle with the bolt-override tool. Using the screwdriver is a bit awkward because you have to keep it partially unfolded, but this is nevertheless one of the best, most functional multi-tools I have ever owned."
